

## Workshop Instructors

### OVERVIEW

As an instructor, you will be responsible for overall design, planning, implementation and delivery of curriculum for specified workshops. These workshops could run either year-round or seasonally. The instructor will also be responsible for taking attendance, teaching the class and / or workshop, and reporting any issues, concerns or developments to the Learning Coordinator.

We have openings for workshops in these areas:

- Woodworking – Project workshops that make use of, and certification classes that teach safe operation of equipment including; table saw, thickness planer, jointer, drill press, sanders, hand tools etc.
- Digital Fabrication – Certification classes that teach safe and proper usage of equipment including; laser machines and 3D printers.
- Metalworking - Project workshops that make use of, and certification classes that teach safe operation of equipment including; metal lathe, metal mill, drill press, grinders, MIG / TIG welders, box and pan brake, metal shear etc.
- CNC – Project workshops that make use of, and certification classes that teach safe operation of equipment including; CNC router and CNC Mill.
- CAD / CAM / Graphics Software – Skills classes that teach use of software such as; AutoDesk Fusion 360, SolidWorks, SketchUp, AutoCAD, On CorelDraw, Adobe Photoshop / Illustrator, Inkscape
- Craftwork – Project workshops that teach skills in the areas of; textiles, woodcraft, papercraft, pottery, glass, jewellery etc.

### REQUIREMENTS

- Ideally one to two years minimum of teaching experience related to the workshop they are instructing.
- Work experience of at least one-half to three years in the area hired to instruct.
- Excellent customer service, communication, leadership, and organizational skills and sensitivity to interact with a diversity of participants in a courteous and efficient manner.
- Current Standard First Aid and CPR-C certification required.
- Availability to work flexible hours including daytime, evenings and weekends.

## **WHO WE ARE**

NewMakelt is a community based innovation space that provides a place for members to work on innovative, creative or entrepreneurial endeavors. Our mission is to be the place in the community where innovation starts and enable our members to start the possible.
