

Drill Press

Check List Before Starting:

- *Are you wearing eye protection?*
- *Are you wearing proper clothing?*
- *Do you have long hair that needs tied back properly?*
- *Have you removed the key from the chuck?*
- *Have you chosen the correct speed for the drill bit chosen?*
- *Is your work safely anchored down?*
- *Are all the safety guards back down and safe to use?*
- *Is the working environment safe for you, others and the machine.*
- *Do you have cutting fluid ready to use?*

Safety Rules:

- *Always wear safety eye protection and appropriate clothing. No loose clothing that may get tangled in the machines spinning parts and drag you in.*
- *Clamp down or use a vice to hold down work so the drill bit does not grab and spin the work piece out of your hands.*
- *All long hair must be tied back.*
- *Do not leave the machine running unattended.*
- *Never talk to any one while working on a machine. If you must talk to someone momentarily take two steps back from the machine before talking to them.*
- *Use a cutting fluid when you are drilling to cool the drill bit.*
- *The cuttings from the drill can be very hot and sharp, remove them with a brush.*
